

The «CAVALLETTO» system with inclined legs is marked by its essentiality and versatility.

The structure is independent from the countertop, and allows the creation of single desks or multiple benches with a wide range of countertops: rectangular, square, circular, elliptical, with ergonomic shapes and rounded corners, maximum design freedom and a wide range of finishings.

All benching solutions have electrical connection undertop, inside a mesh cable-tray, and can be supplied with fabric screen panels and modesty panels;

Structure

Legs and undertop structure made with S/Steel profiles, section cm 5x3, with powder coating finish; adjustable feet in PVC;
