

Product: TUB CHAIR

Podium is an original and elegant seat with semi-circular structure, the ideal range of chairs for prestigious meeting rooms or to furnish offices or waiting areas with impeccable style. The cutting-edge style of the wrap-around backrest broadens out at the top to provide greater comfort, dividing into two along the central cleavage which represents the distinguishing feature of this armchair.

The *Podium* line features a closed tub chair, in which the elegant padding and upholstery cover the entire structure.

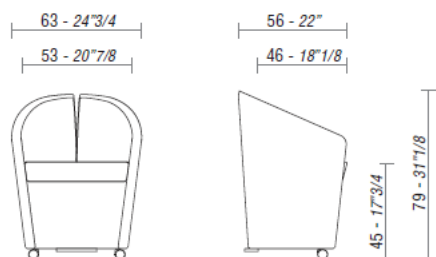

The backrest rests on a cast aluminium plinth, another detail which shows how much attention has gone into the design of this chair.

**TECHNICAL FEATURES**

Structure: tubular metal load-bearing structure for the shell; metal frame and metal springs for the seat.

Base: the backrest and sides rest on a crescent-shaped cast aluminium plinth at the back and two castors or caps at the front.

Padding: cold-moulded Polyurethane foam, with the addition of a layer of Dacron.
