

PARAMOUNT *Design Frighetto Workshop*

ARTICLE: SOFA

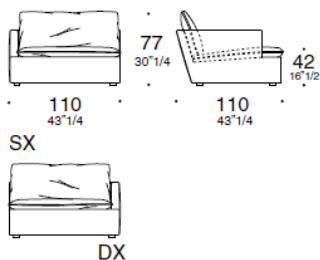

Modular system of soft and deep sofas that offers numerous variations in size. The paramount collection is characterized by the inclination of the backrest combined with a thick fabric or leather covered contrasting border.

TECHNICAL CHARACTERISTICS

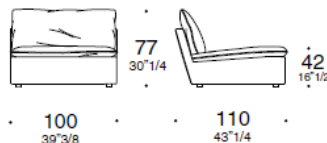

The load-bearing structure, on which the spring system (consisting of metal frames and elastic webbing) rests is made of multilayer beech and poplar wood. The padding is made of expanded density-differentiated polyurethane to ensure greater firmness and comfort. The padding is integrated with soft and thin seat and back cushions, which are made of highest quality down feathers that have been sterilized, sanitized and treated to be hypoallergenic, while the insert is in polyurethane. The ornamental cushions are also made of the highest quality down feathers, which are recommended for a greatest comfort. Suggested N° 2 cushions for element.
