

# Deck

Design by Jorge Pensi

Deck, the executive furniture system created by Spanish architect Jorge Pensi for Estel: the collection consists of desks, meeting tables and storage units. Throughout the collection, generously sized tops stand on light metal legs, creating a perfect harmony between different shapes. The Deck Meeting Manager has been designed for work environments characterized by frequent interactions and knowledge sharing, where company managers can meet up with customers or colleagues in a more informal way. The entire range is equipped with electrified top access.

## TECHNICAL FEATURES

### **Tops**

Meeting manager desk
