

**Product:****WALL COUNTER, ELEMENTS AND COMPOSITIONS**

*BUFFET* includes a variety of high tables, hanging modules, shelves, columns and useful storage units that can be combined, creating different compositions for coffee-break, self-service and restaurant areas. The high table can be equipped with drawer cabinets, drawers and appliances for housing, with retractable multi-socket and top access.

It has also dedicated compartments for sinks, mixers and induction hobs. The available appliances are fridge (to be installed under a top or a column), combi oven, dishwasher, water dispenser and coffee machine.

Hanging modules and open shelves allow to create a variety of configurations for bar, cafeteria, self service areas and restaurant.

**TECHNICAL FEATURES**

Two wall counter options are available:

1. Wall counters only with shelves or shelves and carter;
2. Wall counters with base storage units.

The wall compositions are completed with the addition of columns, wall shelves and hanging modules.

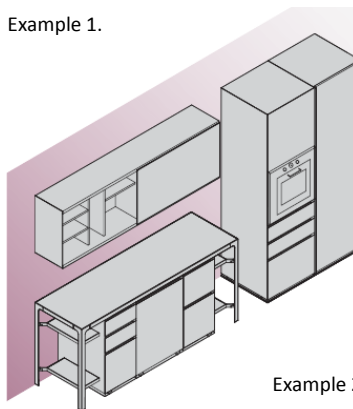

A set of additional terminal panels (in melamine, lacquered finish or veneer) must be added when using one or more base storage units.

A set of additional terminal panels is not needed to the compositions when using one or more columns, but terminal panels can be in lacquered finish or veneer.

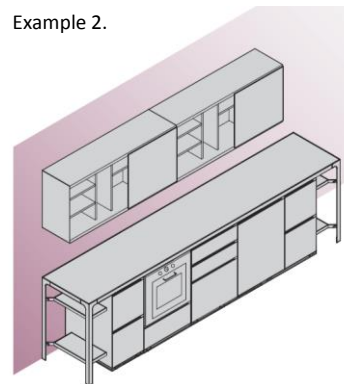

Metal components are in the same finish as the MORE structure, available both in powder coated or Luxury metal (with a surcharge).

If the structure finish is no specified, it is in Titanio finish.
