

# Easy-B

Design by ADP

Easy-B is a family of office and lobby chairs, which allows completely furnishing a given large-size environment in the same style: from workstations to the waiting area. The plastic structure of the backrest can be upholstered with breathable fabric or mesh, to ensure the right lumbar support. Design and synchro self-fit mechanism make Easy-B compliant with the most restrictive ergonomic standards.

Easy-B is also available in the version with supporting mesh seat. This solution makes the chair totally breathable.

# TECHNICAL FEATURES

## EASY-B WITH MESH OR PADDED BACKREST

### Seat

Nylon structure with gloss finish shell reinforced with metal bars for connecting armrests. 30 kg/mc cold-pressed polyurethane foam padding and leather, fabric.

### Backrest
