Design by ADP

Family of seats characterized by a fully upholstered back and a seat containing the synchro self-fit mechanism. The range includes chairs for office, lobby and waiting room settings.

TECHNICAL FEATURES

OFFICE CHAIR

Backrest

Cold molded a crushproof fire-retardant (class 1) polyurethane foam with density of 63 kg/mc with metal structural insert. The adjustment of the lumbar support is made by the updown system of the backrest.

Seat

The inside seat bearing frame is in nylon with a metal reinforcement on which the cold molded crushproof Class 1 fire-retardant polyurethane foam is attached. Underseat in polypropylene which has got the function of covering the autofit mechanism, too.

Upholstery

Fabric cat. B-F-G-L, leather, extra leather

Base

The 5-star base with diameter of 68 cm is available in nylon with reinforced metal ring nut or in aluminum. The self-braking swiveling castors are made of hard or soft rubber, or in "hole" version.

Mechanisms

Standard version and visitor version, with swinging backrest without blocking mechanism; Synchro autofit mechanism which automatically adjusts the backrest tension based on the weight of the person.

Armrests

- Open fixed armrests in nylon;
- Open, height adjustable armrests in nylon;
- T shaped, height adjustable armrests in nylon.
