

Screen panels

Design by Estel R&D

Screen panels are fabric-upholstered, and give shape to surrounding spaces by dividing them into different functional areas; they absorb sound and create reserved spaces..

TECHNICAL FEATURES

Panels

Soundproofing 4 cm thick panels with structure in poplar solid wood and soundproofing padding in fire-resistant polyester, upholstery in fabric. To make the required composition, the panels are connected among them by a powder coated metal pipe with diameter of 15 mm.

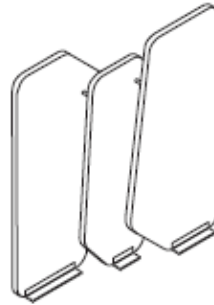

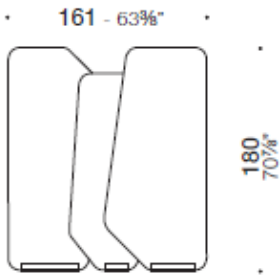

Base a terra

Anti-tilting plate in powder coated 8 mm thick metal.

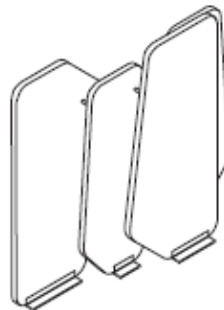

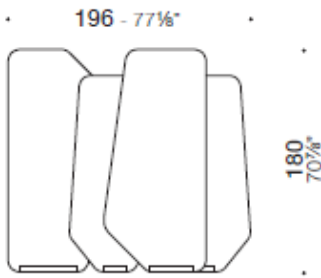

Rivestimento

Tessuti cat. B-F-G-L.
